PROFESSIONAL SUMMARIES

Front-End Developer with proven experience designing and developing **responsive, high-performance web applications** using **HTML5, CSS3, JavaScript, React.js**, and **MERN stack** technologies. Successfully improved **app performance by 30%** during internship at **EDU Tantr** through optimized code and feature implementation. Developed and deployed **full-stack projects** including an **e-commerce platform** with **Firebase Authentication** and **real-time Firestore integration**. Skilled in **MySQL, MongoDB, Node.js, Git**, and **CI/CD pipelines**, with a strong focus on **UI/UX optimization, scalability, and cross-device compatibility**. Committed to writing clean, maintainable code and delivering user-centric digital solutions.

WORK EXPERIENCE

Full Stack Developer Internship

EDU Tantr

May '25 — Jul '25

Bangalore , India

- Contributed to development and maintenance of live web applications using React.js, Express.js, and MongoDB.
- Collaborated with the development team to implement new features and fix bugs, enhancing application performance.
- Created a MERN Stack-based e-commerce web app during internship, integrating Firebase Authentication and Firestore database, which reduced load time by 40% and enhanced user data synchronization.

Python Programmer Internship

Besant Technologies

Oct '25 — Present

Chennai, India

- Undergoing intensive training on **Python programming, object-oriented design, and application development** under professional mentorship.
- Gaining hands-on experience with **core Python, OOP principles, APIs**, and **data structures** to build efficient and maintainable code.
- Enhancing problem-solving and analytical skills by working on **real-world projects** under professional mentorship.

SKILLS

Programming Languages & Front-End Frameworks JavaScript, HTML5, CSS3, React.js

Back-End Technologies JSON, Firebase, Supabase Database

Databases MySQL, MongoDB, SQL Queries, NoSQL

Tools & Version Control Git, GitHub, VS Code, Postman

Languages Javascript

PROJECTS

Personal Portfolio Website, Personal Project [Link](#)

Mar '25 — Jul '25

- Designed and developed a responsive portfolio website using HTML, JS and CSS to showcase projects and technical skills.
- Implemented dynamic content loading and optimized user experience across devices, increasing visitor engagement.

Jarvis E-commerce Website, Academic Project [Link](#)

Jul '25 — Oct '25

- Designed and developed a responsive full-stack e-commerce website using HTML, CSS and JavaScript with Firebase (Firestore) as the database. Implemented product catalog, client-side cart, checkout flow, order management and admin dashboard; optimized UI for mobile and desktop and improved load performance and accessibility.
- Integrated Firebase Authentication for email/social sign-in and role-based access control, and used Firestore real-time listeners to sync carts, stock levels and order status across devices. Added order persistence, user order history, address management, and secure client/server interactions

Expense Tracker, Personal Project [Link](#)

Sep '25 — Sep '25

- Built a full-stack Expense Tracker web app** using React, Tailwind, and Supabase to manage income, expenses, and budgets with secure authentication, CRUD operations, and offline-first support.
- Integrated interactive dashboards and charts** for real-time spending insights, budget adherence, and monthly trend visualization, ensuring accuracy with validation, sanitization, and locale-aware currency/date handling.
- Deployed to production with CI/CD pipelines**, optimizing performance through lazy loading, memoization, and efficient state management while ensuring reliability with unit and integration testing.

EDUCATION

Bachelor's Degree in BSc Computer Science, Thiruvalluvar university vellore

2023 — Present
Tirupattur , India

- Relevant coursework: Data Structures, Web Development, Database Systems, Software Engineering.
- **Final Year Project:** Designed and developed a **Full-Stack E-commerce Website** integrating **Firestore Authentication, Firestore Database, and real-time product management**, improving **load speed and accessibility**.
