LinkedIn Profile

Highly motivated Front-End Developer with hands-on experience in building responsive and interactive web applications using HTML, CSS, JavaScript, and modern frameworks like React.js. Gained practical development skills through an internship at EDU Tantr, contributing to live projects and delivering a personal portfolio website from scratch. Well-versed in MERN stack fundamentals, including MongoDB, Express.js, and Node.js, with additional knowledge of MySQL.

Work Experience

Full Stack Developer Intern • EDU Tantr • Bangalore   May '25 – Jun '25

- Contributed to development and maintenance of live web applications using React.js, Express.js, and MongoDB.
- Collaborated with the development team to implement new features and fix bugs, enhancing application performance.

Skills

Programming Languages & Front-End Frameworks: JavaScript, HTML5, CSS3, React.js
Back-End Technologies: JSON, Firebase, Superbase Database
Databases: MySQL, MongoDB, SQL Queries, NoSQL
Tools & Version Control: Git, GitHub, VS Code, Postman
Languages: Javascript

Projects

Personal Portfolio Website | Link   Mar '24 – Apr '24
Personal Project

- Designed and developed a responsive portfolio website using HTML, JS and CSS to showcase projects and technical skills.
- Implemented dynamic content loading and optimized user experience across devices, increasing visitor engagement.

Jarvis E-commerce Website | Link   Jul '25 – Oct '25
Academic Project

- Designed and developed a responsive full-stack e-commerce website using HTML, CSS and JavaScript with Firebase (Firestore) as the database. Implemented product catalog, client-side cart, checkout flow, order management and admin dashboard; optimized UI for mobile and desktop and improved load performance and accessibility.
- Integrated Firebase Authentication for email/social sign-in and role-based access control, and used Firestore real-time listeners to sync carts, stock levels and order status across devices. Added order persistence, user order history, address management, and secure client/server interactions

Expense Tracker | Link   Sep '25 – Sep '25
Personal Project

- **Built a full-stack Expense Tracker web app** using React, Tailwind, and Supabase to manage income, expenses, and budgets with secure authentication, CRUD operations, and offline-first support.
- **Integrated interactive dashboards and charts** for real-time spending insights, budget adherence, and monthly trend visualization, ensuring accuracy with validation, sanitization, and locale-aware currency/date handling.
- **Deployed to production with CI/CD pipelines**, optimizing performance through lazy loading, memoization, and efficient state management while ensuring reliability with unit and integration testing.

Education

Thiruvalluvar university vellore , Tirupattur , India | Bachelor's Degree   2023 – Present
BSc Computer Science

- Relevant coursework: Data Structures, Web Development, Database Systems, Software Engineering.

- Completed academic projects focused on full stack web applications using JavaScript frameworks.

Certifications

Gen AI Powered Data Analytics | TATA Forage   Oct '25

Introduction to MongoDB, AI, and Vector Search | ITC Academy/MongoDB   Aug '24

MongoDB Atlas | MongoDB   Jul '24

MongoDB and the Document Model | MongoDB   Jul '24

Full Stack Developer | Simplilearn /Skillup   Jun '25

Introduction to Front End Development | Simplilearn / Skillup   Jun '25

Code Generation with Generative AI | Simplilearn /Skillup   Oct '25

Introduction to MERN Stack | Simplilearn / Skillup   Jun '25

Generative AI Mastermind | Outskill   Aug '25

Ai Foundation associate | ORACLE University   Jul '25

Technology Job Simulation | Deloitte   Oct '25
